

## **Unaffected by Taiwan Hualien earthquake with magnitude 6.1**

**April 18, 2019**

Dear Customers:

A magnitude 6.1 earthquake struck at 1:01 p.m. in eastern Taiwan's Hualien County. We understand that it might arouse your concern about the ordered deliveries from TSC.

After checking with our factories and related supply chain, none of them have been affected, TSC is running smoothly and efficiently. For precaution, we are still closely monitoring the situation and are in constant contact with our suppliers.

We appreciate your concern and continuous support.

Best Regards
